Karnataka is globally recognised as the IT capital of India and Bengaluru has gained the reputation as the 4th largest technology cluster of the world. The State of Karnataka offers the most conducive ecosystem for the Startups and Bengaluru is now listed among the top ten hubs globally.

Karnataka is home to the largest pool of R&D and Educational Institutions. This coupled with many path breaking initiatives has helped the state gain the reputation as the Knowledge capital as well as Biotech capital of India. Karnataka contributes over 1/3rd of the Biotech exports and is home to over 50% Biotech companies of the Country.

- ◀ BlockChain
- ◀ Aerospace and Defence
- ◀ Cyber Security
- ◀ GIS
- ◀ IoT
- ◀ Privacy and Piracy
- ◀ Telecom
- ◀ AVGC & AR/VR
- ◀ Robotics & AI and much more

**SPECIAL PROGRAMME : Bengaluru Tech Exchange | Business Awards**

Over the past decade, the Bioinformatics market has significantly evolved across the globe owing to increasing application of genomics in biotech and pharmaceutical research and development. This growth in the global bioinformatics market has positive implications for the Bio-IT Industry. IT, electronics and allied industries are also playing significant role in diagnostics and medical technologies.

On this back drop, the co- location of 20th edition Bengaluru ITE.biz with the 17th edition of Bengaluru INDIA BIO at Bengaluru Palace between 16th and 18th November 2017 offers unique opportunity for the stakeholders to collaborate and explore possibilities of nurturing path breaking ideas, fuel innovation and invent new technologies for better life. Undoubtedly this forum will emerge as the thought leadership and unique B2B platform for the stake holders.

## EVENT SPECTRUM
